

EINSTEIN CELEBRATES BLACK HISTORY MONTH

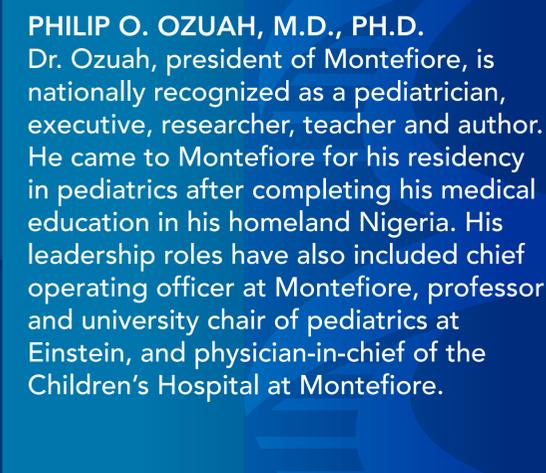

Recognizing exemplary faculty and alumni.

CHINAZO CUNNINGHAM, M.D., M.S.
Dr. Cunningham provides care, develops programs, and conducts research focused on marginalized populations, including drug users, HIV-infected individuals, and those who were recently incarcerated. She studies drug addiction, particularly concerning opioid abuse. She serves on the Mayor's Heroin and Prescription Opioid Public Awareness Task Force and part of the 2016 CDC Opioid Guideline Workgroup that recommended imposing tighter prescription guidelines.

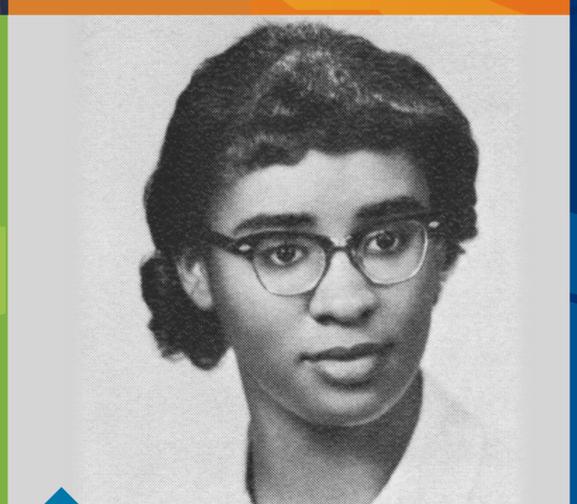

EARLE CHAMBERS, PH.D.
Dr. Chambers studies racial and ethnic disparities in chronic diseases such as Type 2 diabetes and cardiovascular disease at Einstein. His research focuses on the link between people's health and their social and physical milieu, including family size, type of housing, income and education levels, access to green spaces, neighborhood safety, and exposure to noise.

PHILIP O. OZUAH, M.D., PH.D.
Dr. Ozuah, president of Montefiore, is nationally recognized as a pediatrician, executive, researcher, teacher and author. He came to Montefiore for his residency in pediatrics after completing his medical education in his homeland Nigeria. His leadership roles have also included chief operating officer at Montefiore, professor and university chair of pediatrics at Einstein, and physician-in-chief of the Children's Hospital at Montefiore.

MELVYN STONE, M.D.
A surgeon cum electrical engineer, Dr. Stone is associate director of trauma services and surgical critical care at Jacobi and serves as Einstein's surgery clerkship site director. He is senior academic advisor in the office of diversity enhancement and course director/ instructor for Advanced Trauma Life Support and for Advanced Trauma Operative Management. His teaching excellence has earned him induction into Einstein's Leo M. Davidoff Society.

CAROL BURNETT, M.D. '60
Dr. Burnett grew up in the South Bronx, a short bus ride from Einstein. In 1960, she became the first African American and one of the first women to graduate from the College of Medicine. She went on to become a respected pediatrician, a trailblazer for diversity in medical education, and a leader in the fight against health disparities.

LYNNE HOLDEN, M.D.
Dr. Holden established Mentoring in Medicine in 2006 with the aim of helping to diversify the biomedical workplace by inspiring and equipping disadvantaged and low-income students to become healthcare professionals. A member of the Einstein faculty and co-chair of its admissions committee, she is an emergency medicine physician (EM) at Montefiore and site director of the EM residency program.
