IN CASE YOU MISSED IT...

On May 14, more than 30 international students, postdocs and early career scientists came together to hear from Conrad Pollack and Alexandra Bondikov, attorneys from the Immigration Department of Pollack, Pollack, Isaac & DeCiccio, LLP. The lawyers provided an update on the current state of immigration in the U.S., explained the difference between different types of visas available for international trainees, and discussed how to navigate the U.S. visa system. Those in attendance also heard from a panel of postdocs and early-career professionals who have recently been through the process. Panelists shared their personal stories and experiences. The end of the session was reserved for questions and answers. The lawyers graciously stayed until everyone's questions were answered.
