

As the academic medical center and University Hospital for Albert Einstein College of Medicine, Montefiore Medical Center is nationally recognized for clinical excellence—breaking new ground in research, training the next generation of healthcare leaders, and delivering science-driven, patient-centered care.

Montefiore is ranked among the top hospitals nationally and regionally by *U.S. News & World Report* and has been recognized as an IDSA Center of Excellence for Antimicrobial Stewardship. For more than 100 years we have been innovating new treatments, new procedures and new approaches to patient care, producing stellar outcomes and raising the bar for medical centers in the region and around the world. As we build on this momentum, we continue to advance the practice of medicine and set the standard for excellence.

The Pharmacy Department Division of Pharmacotherapy

The mission of the department is to create an environment that enables pharmacists to:

- ◆ Focus on achieving optimal patient outcomes through evidence-based pharmacotherapy
- ◆ Provide high-quality pharmaceutical services that foster the efficacy, safety, and cost-effectiveness of drug use
- ◆ Contribute to programs and services that emphasize the public's health needs and disease prevention
- ◆ Promote Pharmacy as an essential member of the inter-professional healthcare team

The mission is accomplished by :

- ◆ Ongoing collaboration with patients and healthcare providers through an evolving, integrated Pharmacy Practice Model
- ◆ Use of cutting-edge technologies, including CPOE, Smart Pumps, Pyxis Profile, DoseEdge and Senti 7
- ◆ Being recognized as leaders in local, state, and national organizations

The Surroundings
